PROFILE

I am a freelance Front End Developer with proficiency in React, JavaScript, HTML, CSS, SASS, among other technologies.

I started in software development as a self-taught person, until I discovered that I was passionate about this profession. From that moment on, I started taking courses (CoderHouse, Udemy, YouTube), and later, creating projects.

Also, i had a part-time job as a Lawyer, my experience in this career has allowed me to combine my passion for innovation, and new technologies, with my analytical skills and conflict resolution capabilities. Additionally, it has enabled me to acquire excellent communication and teamwork skills.
